

Sprint 4 Report

Product name: SmartShift

Team name: None / Same as Product Name

Sprint Completion date: Tuesday, June 6, 2023

Revision number: 1.0 / 1.1

Revision date: 6/6

Scrum Master: Skyler

Actions to Stop

- All tasks were finished this time.

Actions to Continue

- No more sprints left / can't continue anything

Actions to Start

- Prepare for presentations.

Work Completed / Not Completed

- Completed:
 - **User Story 4.0:** As a forgetful student, I want to receive notifications before an upcoming deadline to remind me to finish an assignment and when a timer goes off. (1 story points)

- **User Story 9.0:** As a goal oriented student, I want an easy way to **set goals for myself and check progress over time**, so that I do not lose focus on achieving the goals. (Goals as in achieve _ time productively working or finish _ tasks over __ time overall) (3 story points)
- **User Story 11.0:** As a student who wants to keep track of what I learned, I want to be able to frequently record what I've learned (reflection - when break starts, write what you accomplished during the pomodoro period) so that I can review it later for studying (3 story points)
- **User Story 17.0:** As a studious student, I want to **work multiple periods of the pomodoro timer**, so that I can do multiple slices of pomodoro periods (3 story points)
- Not Completed:
 -

Work Completion Rate

- Total number of user stories completed: 4/4
- Total number of estimated ideal work hours completed: 40 hours (out of 40)
- Total number of days during sprint 2: 14 (with 3 working days according to *Burnup Chart*)
- Total average hours worked:
 - User Story 4: ~12 hours
 - User Story 9: ~10 hours
 - User Story 11: ~15 hours

- User Story 17: ~3 hours
 - User Story per day (of days actually worked on user story): 1.33 user stories per working day
 - According to Burnup Chart, 3 days out of 6 with scrum meetings.
 - Work hours per day:
 - ~13.33 hrs per day (on average of the 3 days worked on user stories (from the *Burnup Chart Data*)
 - ~ 2.85 hrs per day (out of 14 total days in sprint divided into total average hours worked)
-

Final Sprint 4 Burnup Chart

- Graph: (total hours (y-axis) vs. hours actually done so far (as of _ scrum meeting) (x-axis))
