

- The following pages show the proposed design for TaskBites features.

* Note: The filter button, as well as adding or editing a task, should bring up a small POPUP, not a new screen

- Design does NOT account for:
 - User profile and icon
(most likely will be on top left)
 - STANDALONE tasks
- You edit tasks or projects by clicking their box, and mark the circle checkbox when it's complete

delete task
of
Project

Example:

- Ignoring the sidebar, the little POPUP on the bottom is what it should like when you add or edit a task, with the addition of a trash can button
